

NAME: FATIMA WAJID

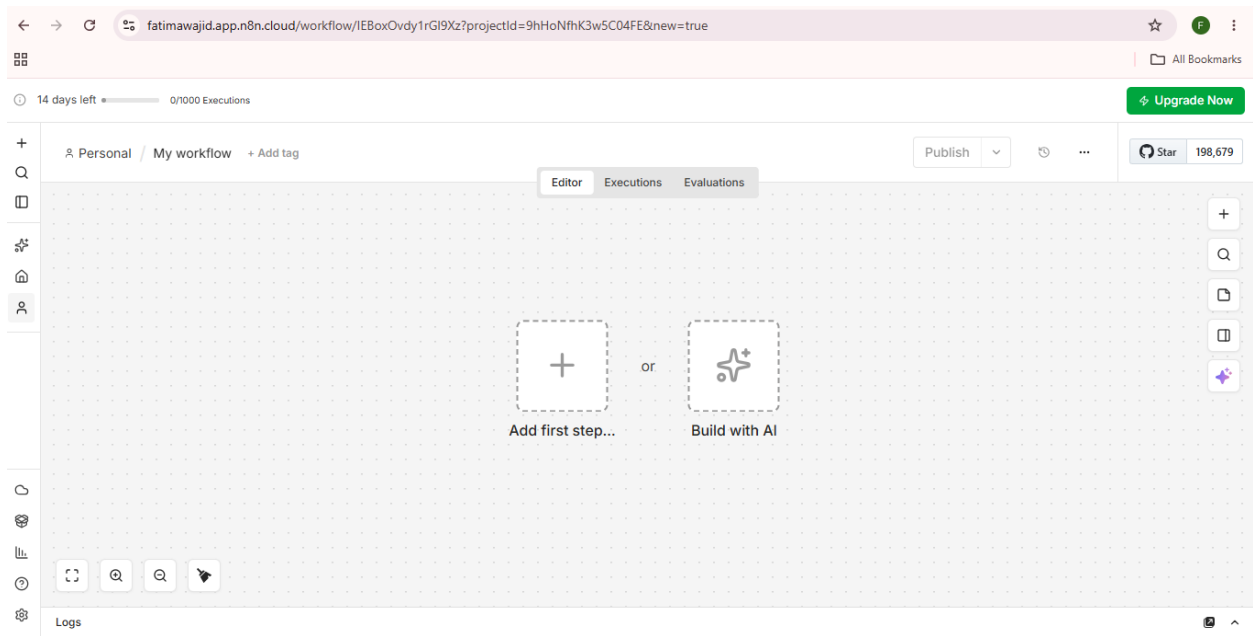

INTERN AT: Petalnex Pvt. Ltd.

INTERNSHIP DOMAIN: AI AUTOMATION

Manual Business processes that could be automated

Process Name	Current Manual Process	Problem	Trigger	Input	Processing Required	Expected Output	Benefits
Resume Screening	HR reads every CV manually	Very slow	CV uploaded	Resume PDF	Extract skills and compare with job requirements	Shortlisted candidates	Saves time
Leave Request	Employee emails manager	Emails get lost	Leave form submitted	Employee details	Validate leave balance and send approval request	Approval/Rejection	Faster process
Customer Support	Staff reads every email	Delayed responses	New support email	Customer message	Categorize and assign priority	Ticket created	Quicker support
Invoice Generation	Accountant creates invoices manually	Time-consuming	New order	Customer and order details	Generate invoice PDF	Invoice emailed	Fewer errors
Daily Sales Report	Manager prepares report manually	Repetitive work	End of day	Sales data	Calculate totals and create report	Daily sales report	Saves time
